

Time Critical Diagnosis

Advancing Systems of Care in Missouri for ST-Segment Elevation Myocardial Infarction (STEMI) & Stroke

January 15, 2008
Governor's Office Building
200 Madison Street
Jefferson City, Mo.

Agenda

- | | |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 9:30 - 9:45 am | Welcome and Purpose of the Meeting , Jane Drummond,
<i>Director of Missouri Department of Health and Senior Services</i> |
| 9:45 - 10:00 am | Introduction to Planning Team and Overview of the Day ,
<i>Deborah Markenson and Kelly Ferrara, facilitators</i> |
| 10:00 - 10:15 am | Heart Disease and Stroke – The Story in Missouri and the Nation , Sherri Homan, RN, PhD, Chronic Disease Epidemiologist,
<i>Missouri Department of Health and Senior Services</i> |
| 10:15 - 10:45 am | Advances in STEMI Care Systems , George Kichura, MD, FACC,
FACP, FSCAI, Medical Director, Cardiac Catheterization Lab, St.
<i>John's Mercy Medical Center and Heart Hospital, St. Louis, Missouri</i> |
| 10:45 - 11:00 am | Break |
| 11:00 - 11:30 am | Advances in Stroke Care Systems , Scott Duff, MD, Specialty
Certification-Vascular Neurology, CoxHealth System Stroke Team
<i>Medical Director, Springfield, Missouri</i> |
| 11:30 - 11:40 am | System Development Pilot Project , Karen Connell, Time Critical
Diagnosis System, Heart Disease and Stroke Prevention Program,
<i>Missouri Department of Health and Senior Services</i> |
| 11:40 am – 12:15 pm | Elements of a Time Critical Diagnosis System That Supports
Care for Trauma, Stroke and STEMI , J. William "Bill" Jermyn,
DO, FACEP, Medical Director, Emergency Medical Services,
<i>Director's Office, Missouri Department of Health and Senior Services</i> |
| 12:15 - 1:00 pm | Lunch with Questions and Answers |

1:00 - 1:30 pm	Systems of Care – Innovative approaches and best practices from the literature and other states experiences, <i>Samar Muzaffar, MD, MPH, University of Missouri Medical Center</i>
1:30 - 2:30 pm	Key Elements to Consider for Missouri's Time Critical Diagnosis System – Panel Discussion, <i>Dr. Kichura, Dr. Duff, Dr. Jermyn, Dr. Muzaffar</i>
2:30-2:45 pm	Break
2:45-3:15 pm	Task Force Purpose and Planning Process, <i>Deborah Markenson, Project Specialist, Missouri Department of Health and Senior Services; Kelly Ferrara, The Vandiver Group, Inc.</i>
3:15-4:00 pm	Next Steps, Evaluation and Adjournment, <i>Dr. Jermyn</i>

Meeting Objectives

1. To improve understanding of the magnitude of the health problems and costs caused by heart disease and stroke in Missouri compared to the nation and Missouri's status on select measures for components of the Time Critical Diagnosis system.
2. To review STEMI care evolution and discuss components of a statewide Time Critical Diagnosis system.
3. To review stroke care evolution and discuss components of a statewide Time Critical Diagnosis system.
4. To review how the system has evolved to support trauma care in Missouri and lessons learned applicable for STEMI and stroke.
5. To identify what other states and regions have done in their systems of care, best practices and innovative approaches.
6. To outline the purpose of the task force and process that will be used to compile a consensus plan to create a functional system for transport, diagnosis and treatment for stroke within the Time Critical Diagnosis system.
